CAUTIONARY STATEMENTS REGARDING FORWARD-LOOKING STATEMENTS

This Quarterly Report on Form 10-Q contains “forward-looking statements” that involve substantial risks and uncertainties. The forward-looking statements are contained principally in the sections entitled “Business,” “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” In some cases, you can identify forward-looking statements by the following words: “may,” “will,” “could,” “would,” “should,” “expect,” “intend,” “plan,” “anticipate,” “believe,” “estimate,” “predict,” “project,” “potential,” “continue,” “ongoing” or the negative of these terms or other comparable terminology, although not all forward-looking statements contain these words. These statements relate to future events or our future financial performance or condition and involve known and unknown risks, uncertainties and other factors that could cause our actual results, levels of activity, performance or achievement to differ materially from those expressed or implied by these forward-looking statements. These forward-looking statements include, but are not limited to, statements about:

- our ability to receive 510(k) clearance for our products and product candidates, complete inspections conducted by the U.S. Food & Drug Administration (“FDA”) or other regulatory bodies resulting in favorable outcomes, additional actions by or requests from the FDA, including a request to cease domestic distribution of products, or other regulatory bodies and unanticipated costs or delays associated with the resolution of these matters;
- the timing and likelihood of regulatory approvals or clearances from the FDA or other regulatory bodies and regulatory actions on our product candidates and product marketing activities;
- unexpected costs, expenses and diversion of management attention resulting from actions or requests posed to us by the FDA or other regulatory bodies;
- our primary reliance on a limited number of products;
- our ability to retain the continued service of our key professionals and to identify, hire and retain additional qualified professionals;
- market and economic uncertainty caused by the COVID-19 outbreak;
- our expectations regarding the sales and marketing of our products, product candidates and services;
- our expectations regarding the integrity of our supply chain for our products;
- the potential for adverse application of environmental, climate change, health and safety and other laws and regulations of any jurisdiction on our operations;
- our expectations for market acceptance of our new products;
- the potential for our marketed products to be withdrawn due to recalls, patient adverse events or deaths;
- our ability to establish and maintain intellectual property on our products and our ability to successfully defend these in cases of infringement;
- the implementation of our business strategies;
- the potential for exposure to product liability claims;
- our financial performance expectations and interpretations thereof by securities analysts and investors;
- our ability to compete in the development and marketing of our products and product candidates with other companies in our industry;
- difficulties or delays in the development, production, manufacturing and marketing of new or existing products and services, including difficulties or delays associated with obtaining requisite regulatory approvals or clearances associated with those activities;

[Table of Contents](#)

- changes in laws and regulations or in the interpretation or application of laws or regulations, as well as possible failures to comply with applicable laws or regulations as a result of possible misinterpretations or misapplications;
- cost-containment efforts of our customers, purchasing groups, third-party payers and governmental organizations;
- costs associated with protecting our trade secrets and enforcing our patent, copyright and trademark rights, and successful challenges to the validity of our patents, copyrights or trademarks;
- actions of regulatory bodies and other government authorities, including the FDA and foreign counterparts, that could delay, limit or suspend product development, manufacturing or sales or result in recalls, seizures, consent decrees, injunctions and monetary sanctions;
- costs or claims resulting from potential errors or defects in our manufacturing that may injure persons or damage property or operations, including costs from remediation efforts or recalls;
- the results, consequences, effects or timing of any commercial disputes, patent infringement claims or other legal proceedings or any government investigations;
- interruption in our ability to manufacture our products or an inability to obtain key components or raw materials or increased costs in such key components or raw materials;
- uncertainties in our industry due to the effects of government-driven or mandated healthcare reform;
- competitive pressures in the markets in which we operate;
- the loss of, or default by, one or more key customers or suppliers; and
- unfavorable changes to the terms of key customer or supplier relationships.

Forward-looking statements are not guarantees of future performance and are subject to substantial risks and uncertainties that could cause the actual results to differ materially from those that we predicted in the forward-looking statements. Investors should carefully review the information contained under the caption "Risk Factors" contained in Item 1A for a description of risks and uncertainties that could cause actual results to differ from those that we predicted. All forward-looking statements are based on information available to us on the date hereof, and we assume no obligation to update forward-looking statements, except as required by Federal Securities laws.

Unless expressly indicated or the context requires otherwise, references in this Quarterly Report to "IRADIMED," the "Company," "we," "our," and "us" refer to IRADIMED CORPORATION.

IRADIMED CORPORATION
Notes to Unaudited Condensed Financial Statements

1 — Basis of Presentation

The accompanying interim condensed financial statements of IRADIMED CORPORATION (“IRADIMED”, the “Company”, “we”, “our”) have been prepared pursuant to the rules and regulations of the SEC. Certain information and footnote disclosures normally presented in annual financial statements prepared in accordance with U.S. generally accepted accounting principles (“GAAP”) have been condensed or omitted pursuant to such rules and regulations. The interim financial information is unaudited, but reflects all normal adjustments that are, in the opinion of management, necessary for the fair presentation of our financial position, results of operations and cash flows for the interim periods presented. Operating results for the three months ended March 31, 2022 are not necessarily indicative of the results that may be expected for the year ending December 31, 2022.

The accompanying interim condensed financial statements should be read with the financial statements and related footnotes to financial statements included in our Annual Report on Form 10-K for the year ended December 31, 2021. The accounting policies followed in the preparation of these interim condensed financial statements, except as described in Note 1, are consistent in all material respects with those described in Note 1 of our Form 10-K.

We operate in one reportable segment which is the development, manufacture and sale of MRI compatible medical devices, related accessories, disposables and service for use by hospitals and acute care facilities during MRI procedures.

Certain Significant Risks and Uncertainties

We market our products to end users in the United States and to third-party distributors internationally. Sales to end users in the United States are generally made on open credit terms. Management maintains an allowance for potential credit losses.

We have deposited our cash and cash equivalents with various financial institutions. Our cash and cash equivalents balances exceed federally insured limits periodically throughout the year. We have not incurred any losses related to these balances.

Our medical devices require clearance from the Food and Drug Administration and international regulatory agencies prior to commercialized sales. Our future products may not receive required approvals. If we were denied such approvals, or if such approvals were revoked or delayed or if we were unable to timely renew certain approvals for existing products, it would have a materially adverse impact on our business, results of operations and financial condition.

Certain key components of our products essential to their functionality are sole-sourced. Any disruption in the availability of these components would have a materially adverse impact on our business, results of operations and financial condition.

COVID-19 Considerations

The COVID-19 pandemic has negatively impacted, and may continue to negatively impact, the macroeconomic environment in the United States and globally. From the beginning of this global health crisis, our priority has been the safety and well-being of our employees and continuing to supply our customers with access to our therapeutic and diagnostic device solutions. Due to the evolving and uncertain nature of COVID-19, it is reasonably possible that it could materially impact our estimates, particularly those that require consideration of forecasted financial information, in the near to medium term. These estimates relate to certain accounts including, but not limited to, intangible assets, and other long-lived assets. The magnitude of the impact will depend on numerous evolving factors that we may not be able to accurately predict, including the duration and extent of the pandemic, the impact of federal, state, local and foreign governmental actions, consumer, supplier and hospital behavior in response to the pandemic and such governmental actions, and the economic and operating conditions that we may face in the aftermath of COVID-19.

[Table of Contents](#)**Recent Accounting Pronouncements**Recently Issued Accounting Pronouncements to be Implemented

In June 2016, the FASB issued ASU 2016-13, *Financial Instruments - Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments*, which requires the Company to measure and recognize expected credit losses for financial assets held and not accounted for at fair value through net income. In November 2018, April 2019 and May 2019, the FASB issued ASU 2018-19, *Codification Improvements to Topic 326, Financial Instruments - Credit Losses*, ASU 2019-04, *Codification Improvements to Topic 326, Financial Instruments - Credit Losses* and ASU 2019-05, *Financial Instruments - Credit Losses (Topic 326): Targeted Transition Relief*, which provided additional implementation guidance on ASU 2016-03. The previously mentioned ASUs are effective for fiscal years beginning after December 15, 2022, with early adoption permitted. We do not expect the adoption of these ASUs to have a material impact on our financial condition, results of operations or cash flows.

Accounting Pronouncements Implemented in 2021

In December 2019, the Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") No. 2019-12, *Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes*. ASU 2019-12 will be effective for fiscal years, and interim periods within those years, beginning after December 15, 2020. We adopted ASU 2009-12 as of January 1, 2021 and it did not have an impact on our financial condition, results of operations or cash flows.

2 — Revenue RecognitionDisaggregation of Revenue

3 — Basic and Diluted Net Income per Share

Basic net income per share is based upon the weighted-average number of common shares outstanding during the period. Diluted net income per share reflects the potential dilution that could occur if securities or other contracts to issue common stock were exercised or converted into common stock. Stock options, restricted stock units and performance-based restricted stock units granted by us represent the only dilutive effect reflected in diluted weighted-average shares outstanding.

The following table presents the computation of basic and diluted net income per share:

	Three Months Ended March 31, 2022 (unaudited) 2021	
Net income	\$ 2,486,713	\$ 1,386,849
Weighted-average shares outstanding — Basic	12,552,817	12,310,577

Research and development	39,744	31,391
Total	\$ 453,360	\$ 347,741

[Table of Contents](#)

As of March 31, 2022, we had \$3,270,056 of unrecognized compensation cost related to unvested restricted stock units, which is expected to be recognized over a weighted-average period of 2.6 years. As of March 31, 2022, we had \$617,609 of unrecognized compensation cost related to unvested performance-based restricted stock units, which is expected to be recognized over a weighted-average period of 2.4 years.

The following table presents a summary of our stock-based compensation activity for the three months ended March 31, 2022 (shares):

	Stock Options	Restricted Stock Units	Performance Based Restricted Stock Units
Outstanding beginning of period	39,576	131,182	18,301

Awards exercised/vested	(12,566)	(5,480)	—
Awards canceled	—	(517)	—
Outstanding end of period	27,010	126,284	18,301

11 — Income Taxes

For the three months ended March 31, 2022, we recorded a provision for income tax expense of \$573,295. Our effective tax rate was 18.7 percent and differed from the U.S. Federal statutory rate primarily due to benefits from foreign derived intangible income, stock compensation and research and development tax credits, partially offset by U.S. state income tax expense.

For the three months ended March 31, 2021, we recorded a provision for income tax expense of \$384,494. Our effective tax rate was 21.7 percent and differed from the U.S. Federal statutory rate primarily due to U.S. state income tax expense, partially offset by benefits from foreign derived intangible income and research and development tax credits.

As of March 31, 2022, and December 31, 2021, we had not identified or accrued for any uncertain tax positions. We are currently unaware of any uncertain tax positions that could result in significant payments, accruals or other material deviations in this estimate over the next 12 months. We believe that our tax positions comply in all material respects with applicable tax law. However, tax law is subject to interpretation, and interpretations by taxing authorities could be different from ours, which could result in the imposition of additional taxes and penalties.

We file tax returns in the United States Federal jurisdiction and many U.S. state jurisdictions. Our returns are not currently under examination by the Internal Revenue Service. The Company remains subject to income tax examinations for our United States Federal and certain U.S. state income taxes for 2017 and subsequent years and various other U.S. state income taxes for 2016 and subsequent years.

12 — Leases

We have entered into operating lease contracts for our office and various office equipment.

We have one material lease contract outstanding. In January 2014, we entered into a non-cancelable operating lease, commencing July 1, 2014, for our manufacturing and headquarters facility in Winter Springs, Florida owned by Susi, LLC, an entity controlled by our President, Chief Executive Officer, and Chairman of the Board, Roger Susi. Pursuant to the terms of our lease for this property, the monthly base rent is \$34,133, adjusted annually for changes in the consumer price index. For the year ended December 31, 2021, the Company paid Susi, LLC \$461,874 related to this lease. Under the terms of the lease, we are responsible for property taxes, insurance and maintenance expenses. Prior to May 31, 2019, the expiration date of the initial lease term, and pursuant to the terms of the lease contract, we renewed the lease for an additional five years, resulting in a new lease expiration date of May 31, 2024. Unless advance written notice of termination is timely provided, the lease will automatically renew for one additional successive term of five years beginning in 2024, and thereafter, will be renewed for successive terms of one year each. At the time we adopted ASU 2016-02, Leases (Topic 842), we concluded that we would exercise the remaining five-year option, resulting in a remaining lease term of 7.2 years as of March 31, 2022. This lease agreement does not contain any residual value guarantee or material restrictive covenants.

13 — Commitments and Contingencies

Purchase commitments. We had various purchase orders for goods or services totaling \$5,532,627 and \$5,604,456 as of March 31, 2022 and December 31, 2021, respectively. No amounts related to these purchase orders have been recognized in our balance sheet.

Legal matters. We may from time to time become a party to various legal proceedings or claims that arise in the ordinary course of business. As of March 31, 2022 and December 31, 2021, we accrued approximately \$138,000 and \$146,000, respectively, related to various matters.

[Table of Contents](#)**Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations**

The following discussion and analysis should be read in conjunction with our condensed financial statements and the related notes to those statements included in this Quarterly Report, the discussion of certain risks and uncertainties contained in Part II, Item 1A of this Quarterly Report, the discussion under "Management's Discussion and Analysis of Financial Condition and Results of Operations" and "Business" included in our Annual Report filed on Form 10-K for the fiscal year ended December 31, 2021 and the cautionary information regarding forward-looking statements at the beginning of this Quarterly Report.

Our Business

We develop, manufacture, market and distribute Magnetic Resonance Imaging ("MRI") compatible medical devices and accessories, disposables and services relating to them.

We are a leader in the development of innovative MRI compatible medical devices. We are the only known provider of a non-magnetic intravenous ("IV") infusion pump system that is specifically designed to be safe for use during MRI procedures. We were the first to develop an infusion delivery system that largely eliminates many of the dangers and problems present during MRI procedures. Standard infusion pumps contain magnetic and electronic components which can create radio frequency interference and are dangerous to operate in the presence of the powerful magnet that drives an MRI system. Our patented MRidium® MRI compatible IV infusion pump system has been designed with a non-magnetic ultrasonic motor, uniquely designed non-ferrous parts and other special features to safely and predictably deliver anesthesia and other IV fluids during various MRI procedures. Our pump solution provides a seamless approach that enables accurate, safe and dependable fluid delivery before, during and after an MRI scan, which is important to critically ill patients who cannot be removed from their vital medications, and children and infants who must generally be sedated to remain immobile during an MRI scan.

Each IV infusion pump system consists of an MRidium® MRI compatible IV infusion pump, non-magnetic mobile stand, proprietary disposable IV tubing sets and many of these systems contain additional optional upgrade accessories.

Our 3880 MRI compatible patient vital signs monitoring system has been designed with non-magnetic components and other special features to safely and accurately monitor a patient's vital signs during various MRI procedures. The IRADIMED 3880 system operates dependably in magnetic fields up to 30,000 gauss, which means it can operate virtually anywhere in the MRI scanner room. The IRADIMED 3880 has a compact, lightweight design allowing it to travel with the patient from their critical care unit, to the MRI and back, resulting in increased patient safety through uninterrupted vital signs monitoring and decreasing the amount of time critically ill patients are away from critical care units. The features of the IRADIMED 3880 include: wireless ECG with dynamic gradient filtering; wireless SpO2 using Masimo® algorithms; non-magnetic respiratory CO2; invasive and non-invasive blood pressure; patient temperature, and; optional advanced multi-gas anesthetic agent unit featuring continuous Minimum Alveolar Concentration measurements. The IRADIMED 3880 MRI compatible patient vital signs monitoring system has an easy-to-use design and allows for the effective communication of patient vital signs information to clinicians.

We generate revenue from the sale of MRI compatible medical devices and accessories, extended warranty agreements, services related to maintaining our products and the sale of disposable products used with our devices. The principal customers for our MRI compatible products include hospitals and acute care facilities, both in the United States and internationally. As of December 31, 2021, our direct U.S. sales force consisted of 21 field sales representatives, 3 regional sales directors and supplemented by 4 clinical application specialists. Internationally, we have distribution agreements with independent distributors selling our products.

Selling cycles for our devices have varied widely and have historically ranged between three and six months in duration with more recent trends lengthening beyond this historical range due to the COVID-19 pandemic. We also enter into agreements with integrated delivery health systems and healthcare supply contracting companies in the U.S. Our agreements with healthcare supply contracting companies enable us to sell and distribute our products and services to their member hospitals. Under these agreements, we are required to pay these group purchasing organizations ("GPOs") a fee of three percent of the sales of our products to their member hospitals.

[Table of Contents](#)**Financial Highlights**

For the first quarter ended March 31, 2022, our revenue increased \$3.1 million, or 33.5 percent, to \$12.3 million, compared to \$9.2 million for the first quarter last year. Income before the provision for income taxes was \$3.1 million for the first quarter 2022, compared to \$1.8 million for the first quarter last year. Net income was \$2.5 million, or \$0.20 per diluted share in the first quarter ended March 31, 2022, compared to \$1.4 million, or \$0.11 per share in the first quarter last year.

For the remainder of 2022, we expect higher revenue when compared to the same period in 2021 due to higher sales of our medical devices, related accessories, disposables, and services. We also expect higher operating expenses compared to the same period in 2021 primarily due to higher sales and marketing, and general and administrative expenses.

Application of Critical Accounting Policies

We prepare our financial statements in conformity with GAAP. The preparation of these financial statements requires us to make estimates and use assumptions that affect the reported amounts of assets, liabilities and related disclosures at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

We believe that the following critical accounting policies require the use of significant estimates, assumptions, and judgments:

- Revenue recognition;
- Accounts receivable and allowance for doubtful accounts;
- Inventory carried at the lower of cost or net realizable value;
- Product warranties;
- Stock-based compensation; and
- Income taxes.

These critical accounting policies are described in more detail in our Annual Report filed on Form 10-K, under *Management's Discussion and Analysis and Results of Operations*. Except as disclosed in Note 1 to the unaudited condensed financial statements contained herein related to the adoption of recent accounting pronouncements, there have been no changes to these policies during the three months ended March 31, 2022.

The use of different estimates, assumptions, and judgments could have a material effect on the reported amounts of assets, liabilities and related disclosures as of the date of the financial statements and revenue and expenses during the reporting period.

[Table of Contents](#)**Results of Operations**

Amortization of extended maintenance contracts	515,118	481,353	7.0 %
Total revenue	\$ 12,310,710	\$ 9,223,996	33.5 %

For the three months ended March 31, 2022, revenue increased \$3.1 million, or 33.5 percent, to \$12.3 million from \$9.2 million for the same period in 2021.

Revenue from sales in the U.S. increased \$2.7 million, or 37.2 percent, to \$10.0 million for the first quarter 2022, from \$7.3 million for the first quarter 2021. Revenue from sales internationally increased \$0.3 million, or 19.5 percent, to \$2.3 million for the first quarter 2022, from \$2.0 million for the first quarter 2021. Domestic sales accounted for 81.1 percent of revenue for the first quarter 2022, compared to 78.8 percent for the first quarter 2021.

[Table of Contents](#)

Revenue from sales of devices increased \$2.4 million, or 38.8 percent, to \$8.5 million for the three months ended March 31, 2022, from \$6.1 million for the same period in 2021.

The average selling price of our MRI compatible IV infusion pump system during the three months ended March 31, 2022 was approximately \$33,800, compared to approximately \$32,700 for the same period in 2021. The increase in ASP is the result of higher domestic unit sales, partially offset by an unfavorable product sales mix when compared to the same period in 2021.

The average selling price of our MRI compatible patient vital signs monitoring system during the three months ended March 31, 2022 was approximately \$46,800, compared to approximately \$38,300 for the same period in 2021. The increase in ASP relates to higher domestic unit sales when compared to the same period in 2021, and price increases we began implementing during the second half of 2021.

Revenue from sales of our disposables, service and other increased \$0.7 million, or 25.9 percent, to \$3.3 million for the three months ended March 31, 2022, from \$2.6 million for the same period in 2021. Revenue from the amortization of extended warranty agreements was consistent at \$0.5 million for the three months ended March 31, 2022 and 2021.

Cost of Revenue and Gross Profit

	Three Months Ended March 31,	
	2022	2021
Revenue	\$ 12,310,710	\$ 9,223,996
Cost of revenue	2,931,186	2,161,680
Gross profit	<u>\$ 9,379,524</u>	<u>\$ 7,062,316</u>
Gross profit percentage	76.2 %	76.6 %

For the three months ended March 31, 2022, cost of revenue increased \$0.8 million, or 35.6 percent, to \$2.9 million from \$2.2 million for the same period last year. Gross profit increased \$2.3 million, or 32.8 percent, to \$9.4 million for the first quarter 2022 from \$7.1 million for the same period in 2021. Gross profit margin was 76.2 percent for first quarter 2022, compared to 76.6 percent for the first quarter 2021. The decrease in gross profit margin is primarily due to unfavorable labor and overhead expenses, partially offset by a favorable geographic sales mix.

Operating Expenses

	Three Months Ended March 31,	
	2022	2021
General and administrative	\$ 2,715,950	\$ 2,430,369
Percentage of revenue	22.1 %	26.3 %

Percentage of revenue	24.9 %	25.8 %
Research and development	\$ 519,095	\$ 475,817
Percentage of revenue	4.2 %	5.2 %

General and Administrative

For the three months ended March 31, 2022, general and administrative expense increased \$0.3 million, or 11.8 percent, to \$2.7 million from \$2.4 million for the same period last year. This increase is primarily due to higher payroll and benefits expenses, and legal and professional expenses.

Sales and Marketing

For the three months ended March 31, 2022, sales and marketing expense increased \$0.7 million, 29.0 percent, to \$3.1 million from \$2.4 million for the same period last year. This increase is primarily due to higher sales commissions, sales activities expenses, and payroll and benefits expenses.

[Table of Contents](#)

Research and Development

For the three months ended March 31, 2022, research and development expense was consistent at \$0.5 million. This is primarily due to higher prototype expenses, offset by lower employee recruiting expenses.

Other Expense, Net

Other expense, net consists of interest income, foreign currency gains and losses, and other miscellaneous income. For the three months ended March 31, 2022, we reported other expense of approximately \$15,000, compared to expense of approximately \$6,000 for the three months ended March 31, 2021. There were no significant changes in these accounts during the three months ended March 31, 2022, compared to the same quarter last year.

Income Taxes

For the three months ended March 31, 2022, we recorded a provision for income tax expense of \$573,295. Our effective tax rate was 18.7 percent and differed from the U.S. Federal statutory rate primarily due to benefits from foreign derived intangible income, stock compensation and research and development tax credits, partially offset by U.S. state income tax expense. For the full year 2022, we expect an effective tax rate of approximately 23 percent.

For the three months ended March 31, 2021, we recorded a provision for income tax expense of \$384,494. Our effective tax rate was 21.7 percent and differed from the U.S. Federal statutory rate primarily due to U.S. state income tax expense, partially offset by benefits from foreign derived intangible income and research and development tax credits.

Liquidity and Capital Resources

Our principal sources of liquidity have historically been our cash and cash equivalents balances, our investments, cash flow from operations and access to the financial markets. Our principal uses of cash are operating expenses, working capital requirements and capital expenditures.

As of March 31, 2022, we had cash and investments of \$50.4 million, stockholders' equity of \$62.5 million, and working capital of \$59.3 million. During the quarter ended March 31, 2022, we paid a special dividend of \$12.6 million to our shareholders. As of December 31, 2021, we had cash and investments of \$62.5 million, stockholders' equity of \$72.2 million, and working capital of \$69.4 million.

We believe that our current cash, investments and any cash generated from operations will be sufficient to meet our ongoing operating requirements for at least the next 12 months. We do not anticipate requiring additional capital; however, if required or desirable, we may seek to obtain a credit facility, raise debt or issue additional equity in private or public markets.

	Three Months Ended March 31,	
	2022	2021
Net cash provided by operating activities	\$ 1,426,187	\$ 943,081
Net cash used in investing activities	(424,694)	(173,933)
Net cash used in financing activities	(12,554,559)	(36,247)

Cash provided by operating activities increased \$0.5 million, to \$1.4 million for the three months ended March 31, 2022, compared to \$0.9 million for the same period in 2021. During the three months ended March 31, 2022, cash provided by operations was positively impacted by net income and negatively impacted by cash outflows from accrued payroll and benefits, and prepaid expenses.

Cash used in investing activities was \$(0.4) million for the three months ended March 31, 2022, compared to \$(0.2) million for the same period in 2021. During the three months ended March 31, 2022, cash used in investing activities was impacted by capital expenditures and capitalized intangible assets.

Cash used in financing activities was \$(12.6) million for the three months ended March 31, 2022, compared to approximately \$(0.0) million for the same period in 2021. This is primarily due to dividends paid and the net share settlement of restricted stock units, partially offset by proceeds from the exercise of stock options.

We market our products to end users in the U.S. and to distributors internationally. Sales to end users in the U.S. are generally made on open credit terms. Management maintains an allowance for potential credit losses.

Our manufacturing operations and headquarters facility is approximately 23,100 square feet located in Winter Springs, Florida. This facility has been leased from Susi, LLC, an entity controlled by our President, Chief Executive Officer, and Chairman, Roger Susi. Pursuant to the terms of our lease, the monthly base rent is \$34,133, adjusted annually for changes in the consumer price index.

Off-Balance Sheet Arrangements

As of March 31, 2022 and December 31, 2021, we did not have any off-balance sheet arrangements, as such term is defined under Item 303 of Regulation S-K, that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

Contractual Obligations

There have been no material changes outside the ordinary course of business to our contractual obligations and commercial commitments since December 31, 2021.

Recent Accounting Pronouncements

See Note 1 to the unaudited condensed financial statements contained herein for a full description of recent accounting pronouncements including the respective expected dates of adoption and status of evaluation of expected effects on results of our operations and financial condition.

Item 3. Quantitative and Qualitative Disclosures about Market Risk***Foreign Currency Exchange Risk***

We have foreign currency risks related to our cost of revenue denominated in currencies other than the U.S. Dollar, principally the Japanese yen ("Yen"). The volatility of the Yen depends on many factors that we cannot forecast with reliable accuracy. We have experienced and will continue to experience fluctuations in our net income as a result of transaction gains and losses related to revaluing Yen denominated accounts payable balances. In the event our Yen denominated accounts payable or expenses increase, our operating results may be affected by fluctuations in the Yen exchange rate. If the U.S. Dollar uniformly increased or decreased in strength by 10 percent relative to the Yen, our net income would have correspondingly increased or decreased by an immaterial amount for the three months ended March 31, 2022 and 2021.

Interest Rate Risk

When able, we invest excess cash in bank money-market funds, corporate debt securities or discrete short-term investments. The fair value of our cash equivalents and short-term investments is sensitive to changes in the general level of interest rates in the U.S., and the fair value of these investments will decline if market interest rates increase.

As of March 31, 2022, we had \$0.5 million in corporate bonds, all of which are maturing in less than 1 year. These corporate bonds have fixed interest rates and semi-annual interest payment dates. If market interest rates were to change by 100 basis points from levels at March 31, 2022, we expect the corresponding change in fair value of our investments would be immaterial. This is based on sensitivity analyses performed on our financial position as of March 31, 2022. Actual results may differ as our analysis of the effects of changes in interest rates does not account for, among other things, sales of securities prior to maturity and repurchase of replacement securities, the change in mix or quality of the investments in the portfolio, and changes in the relationship between short-term and long-term interest rates.

[Table of Contents](#)**Item 4. Controls and Procedures****Evaluation of Disclosure Controls and Procedures**

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e)) of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), are designed to ensure that: (1) information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in SEC rules and forms; and (2) such information is accumulated and communicated to management, including the principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosures. There are inherent limitations to the effectiveness of any system of disclosure controls and procedures, including the possibility of human error and the circumvention or overriding of controls and procedures. Accordingly, even effective disclosure controls and procedures can only provide reasonable assurance of achieving their control objectives.

Our management, including our Chief Executive Officer and Chief Financial and Operating Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures as of March 31, 2022. Our Chief Executive Officer and Controller and Interim Chief Financial Officer have concluded that our disclosure controls and procedures as of March 31, 2022 were effective.

Changes in Internal Control Over Financial Reporting

There was no change in our internal control over financial reporting identified in connection with the evaluation required by Rule 13a-15(d) and 15d-15(d) of the Exchange Act that occurred during the period covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II. OTHER INFORMATION

Item 1. Legal Proceedings

We may from time to time become party to various legal proceedings or claims that arise in the ordinary course of business. Our management reviews these matters if and when they arise, and believes that the resolution of any such matters currently known will not have a material effect on our results of operations or financial position.

Item 1A. Risk Factors

We operate in a rapidly changing environment that involves a number of risks that could materially affect our business, financial condition or future results, some of which are beyond our control. The occurrence of any of these risks could harm our business, financial condition, results of operations and/or growth prospects or cause our actual results to differ materially from those contained in forward-looking statements we have made in this report and those we may make from time to time. In evaluating the Company and its business, you should carefully consider the information included in this Quarterly Report on Form 10-Q and the factors discussed under Part I, Item 1A "Risk Factors" in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021, as well as in other documents we file with the SEC. Except as described below, there have been no material changes to the risk factors previously disclosed in our Annual Report on Form 10-K for the fiscal year ended December 31, 2021.

Item 2. Unregistered Sale of Equity Securities and Use of Proceeds

None.

Item 3. Default Upon Senior Securities
